

Usage / Deployment Instruction

Use the browser to access the application at <http://<instance ip address>> replace **<instance ip address>** with the actual IP address of the running EC2 instance.

Below are the installation steps:

Step 1: Configuration:

The image shows the Joomla! installation configuration screen. At the top is the Joomla! logo and the text "Joomla!® is free software released under the GNU General Public License." Below this is a progress bar with three steps: 1 Configuration (active), 2 Database, and 3 Overview. Under the progress bar, there is a "Select Language" dropdown menu set to "English (United Kingdom)" and a "Next" button. The main section is titled "Main Configuration" and contains four input fields: "Site Name *" (with a red border), "Administrator Email", "Description", and "Administrator Username *". Each field has a placeholder text below it: "Enter the name of your Joomla! site.", "Enter an email address. This will be the email address of the website Super User.", "Enter a description of the overall website that is to be used by search engines", and "Set the username for your Super User account".

Step 2: Database Configuration:

Please use following details to configure database.

Host: **localhost**

Database Name: **mirijoomla**

Username (for Database): **miriuserjoomla**

Password (For Database): **miri2018**

Joomla!® is free software released under the [GNU General Public License](#).
